

Tesi di Dottorato XXXVII ciclo

Dottore di Ricerca	<i><u>Titolo della tesi di dottorato</u></i>	supervisore
Chiara Buzzanca	<i>Analisi Lipidomiche Mediante Tecniche Cromatografiche Accoppiate alla Spettrometria di Massa per la Valutazione dello Stato di Salute dei Pazienti</i>	Prof. Luigi Mondello co supervisore Dr. Giuseppe Micalizzi
Cinzia Cafarella*	<i>Use of Liquid Chromatography and Mass Spectrometry Methods for the Detailed Characterization of Food and Biological Samples</i>	Dott.ssa Francesca Rigano
Giovanna Cafeo	<i>Determination of oxygen heterocyclic compounds in Citrus-flavored food and cosmetic products by means of liquid chromatographic techniques</i>	Prof.ssa Paola Dugo
Elsa Calcaterra	<i>Design, Synthesis, and Biological Evaluation of Peptide-based Inhibitors of SARS-CoV-2 Proteases</i>	Prof.ssa Maria Zappalà Co-Supervisore Dr. Santo Previti
Daniele Crisafulli	<i>Novel pillar[5]arene and oxacalix[4]arene derivatives for the recognition and sensing of nitrogen-containing guests</i>	Prof. Giuseppe Gattuso
Ester D'Agostino	<i>Design and Synthesis of New Sugars- and Peptides- Functionalized Chromophores and Investigation of Their Supramolecular and Photophysical Behavior</i>	Prof.ssa Anna Barattucci Co-Supervisore Prof.ssa Francesca Giuntini
Federica LITRENTA	<i>Food Safety in the Agri-Food Supply Chain</i>	Prof.ssa Giuseppa Di Bella
Giuliana LAZZARO	<i>Toward Sustainable Energy: Molecular Complexes and Organized Architectures for Solar Harvesting and Conversion</i>	Prof. Fausto Puntoriero
Roberto OLIVA	<i>Chemically tailored nanoplatfoms: versatile design strategies for customized antitumoral and antibacterial applications</i>	Prof.ssa Angela Scala

*label Doctor Europaeus
